

Precautions

If you become aware of a problem in your immediate area, take the following precautions and report the situation immediately to Facilities Management (x1120), if after hours or on weekends call Public Safety (x1111).

Gas Leaks - **EVACUATE** area immediately. Do not smoke or use spark-producing devices.

Ventilation - if smoke or burning odor is present, evacuate the area.

Elevator - Pick up telephone in elevator to contact Public Safety(x1111).

Plumbing/ Flooding - Evacuate area immediately.

Electrical - Call Public Safety (x1111) for escorts to your vehicle at night.

Down Power Lines - Avoid the area and stay away from water (water may act as a conduit).

Major Utility Failure

Remain Calm. Relocate.

Notify your supervisor and Facilities Management (x1120).

Follow directions of your supervisor and Public Safety.

If you are responsible for an area that has a backup generator and it does not begin to operate, contact your supervisor immediately.

If you are aboard the Training Ship GOLDEN BEAR, proceed immediately to the quarter deck and await instructions.
