## International Strategy & Security

- **Water Policy and Management Intern- PPIC**

- The Public Policy Institute of California (PPIC) Summer Intern Program provides an opportunity for students interested in a public policy career to work in a policy research environment. This internship will provide foundational research support to the Water Policy Center's ongoing efforts to connect nonpartisan, objective research to real world water management debates, with the goal of putting California water policy on a sustainable and constructive path. Potential areas of focus may include: climate adaptation for freshwater ecosystems, including legal and regulatory frameworks, and coastal issues, such as sea level rise and urban supplies.
