# What is the Corps of Cadets? est. 1929

The unique structure of the Corps of Cadets at Cal Maritime puts day-to-day responsibility and accountability into the hands of cadets. Our campus charges cadets to gain that leadership experience through traits of professionalism, teamwork, pride, and self-discipline, in order to become future leaders in maritime and other industries. When a cadet graduates from CSU Maritime Academy, they will be ready to step into any professional setting as not an employee, but as a leader.
